## Leadership Development Initiative

### WVLDI Online Professional Opportunities Posting Information

The veterinary profession has undergone a great demographic shift over the past 25 years, but the change in leadership hasn't kept pace. Women are now more than half of the profession!

Posting professional opportunities on the WVLDI website is an effective way of targeting today's leaders in veterinary medicine and developing tomorrow's leaders by reaching veterinary students and recent graduates as they start off their careers as practicing veterinarians.

All job listings will be featured on [WVLDI.ORG](http://WVLDI.ORG) for either 90 days or 180 days. Please allow five business days for your ad to appear once the payment has been processed. Please attach ad copy via email.
